

Dragon's diary from Nóaborg

After breakfast *Katla* put on her pirate tiara and helped making tiara for the children. They made all kinds colourful paintings and pirate stuff while they were waiting for the festival. After having lunch and resting a short while the parents came to the school and guess what -some pirates too!!

The biggest pirate had lost his treasure and asked for help. *Katla* tried to help even though she was frighten and she had to do all kinds of tricks and treat to make the pirate satisfied.

Put on tiara.

Helping the children.

***Katla* likes to sit in the lap and get a hug.**

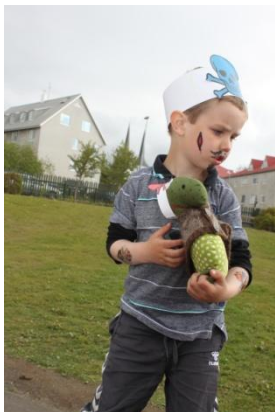

She loves to read books and to learn many things.

At last everybody ate hot dogs from the barbeque. *Katla* loves hot dogs but she was wondering if it would be even better if she would grill them by the fire from her mouth. It is maybe too dangerous even though we have a lot of water here in Iceland.

The pirate had lost his treasure.

Katla found one stone of gold in the sand box!!

Katla is getting tired.

Now *Katla* was getting very tired and she went to sleep this night very happy, just like all the children in Nóaþorg in Reykjavík , Iceland, Europe.

Bless, bless *Katla* says to you all - our friends in the other 8 countries.
